

A New Job Site!!

OS clients are now employed at Culver's in Savage! Our crew started working there on Sept. 24, 2007 delivering food to customers during the lunch hour. Even though they have only been employed for a little over 2 weeks, they have made a big impact on the Culver's employees and their customers. Culver's management has said that their customers are very pleased with our clients' and the service they are performing. Keep up the great work!!!
